

## Democratic Study Group, 1963-1990

Boxes 516-518 (3 boxes)

Arranged chronologically by Congress.

Contains fact sheets, reports, and vote compilations, relating to bills pending and passed by Congress. The bulk of this material outlines the background, provisions, and arguments for and against various bills before the members. The vote compilations include a summary of the vote results by roll calls within sessions and selected references to the particular bill in the Congressional Record and other Democratic Study Group publications. These files are incomplete with many gaps in the series. See also 2.5 for additional voting records summaries.
